DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Garner (U.S. Patent No. 6,058,307).

Regarding claim 1, Garner teaches a method of doing business where a wireline telephone company provides wireless telephone communication through a telephone network including:

providing a plurality of telephone signals over one or more wireline connected to one or more network nodes in wireless communication proximity to one or more telephone users (Fig. 1); and

selectively responding to requests from one or more wireless devices for telephone network attachment through a wireless communication with the network node device based on wireless device user information provided to said network node (column 10, lines 8-30).

Art Unit: 2642

Regarding claim 2, Garner further teaches the method wherein at least one wireline is dedicated to a particular user (Fig. 1).

Regarding claim 3, Garner further teaches the method wherein at least one wireline can be shared among multiple users (Fig. 1).

Regarding claim 4, Garner further teaches the method wherein at least one user has access to both dedicated and shared wirelines (Fig. 1).

Regarding claims 5-10, see column 78, line 41 through column 80, line 60.

Regarding claims 11 and 12, see column 86, lines 40-46.
